## YORK COLLEGIATE INSTITUTE

ON April 14, 1873, Samuel Small (1799-1885), one of York's outstanding philanthropists, convened a meeting of a number of his fellow-townsmen and outlined to them a plan which he had formulated for the establishment of a new institution of learning in this community. His reasons for so doing, as well as the character of the school proposed, are best expressed in his own words:

"Deeply impressed with the importance for increasing popular facilities for intellectual and moral culture, and especially solicitous for the Christian education of youth, in this region where Providence has cast our lot,—we desire in this way to lay the foundation of an institution for the purpose of instructing young persons not only in the ordinary branches of literature and science, but also, and especially, in regard to the great business and end of life."

The minutes of this meeting state that "the name agreed upon was York Collegiate Institute"; and, later in the same year, a charter was granted to Mr. Small and his associates under this title. To this corporation, he conveyed the tract of land now occupied by the Institute, with a fully-equipped building erected thereon, and provided the school with a liberal endowment.

During the night of December 7, 1885, shortly after the death of the Founder, the school building provided by his bounty was totally destroyed by fire. The present modern structure is a memorial to his memory, erected by his nephews, Messrs. George Small, W. Latimer Small and Samuel Small.

## YORK COUNTY ACADEMY

**O**N September 20, 1787, the Protestant Episcopal Church of St. John at Yorktown was incorporated. At this time, it had built a church on Beaver Street and had nearly completed a parsonage house and "a large and extensive school house" opposite the church. The charter provided certain revenues "for the maintenance, support and salaries of a proper number of masters and teachers to be elected and appointed by said rector, churchwardens and vestrymen or their successors or a majority of them from time to time for the instruction and education of youth in the learned and foreign languages, reading and writing English, the mathematics and other useful branches of literature in the said school house now called 'The York Academy'."

In 1799 a tender of the Academy was made by the church authorities to the Legislature, "in order that the same may be appropriated for a public school for the County of York." The Legislature, by Act of March 1st, 1799, accepted the tender; created a self-perpetuating corporation under the name of The Trustees of the York County Academy; transferred to the corporation title to the building and lot; prescribed regulations for the school; and authorized the payment to the institution of two thousand dollars as an endowment.

At the close of the academic year 1928-29, a reciprocal teaching agreement was entered into, providing that the Academy should thereafter be maintained in the buildings of the York Collegiate Institute and that certain advantages should be enjoyed reciprocally by the students of the two institutions.

## SCHOOL STANDARDS

The first requisite of a student is that he be a Christian gentleman and a good citizen. The first requisite of teachers in the school is that by interest in students and by personal contact, they be able to inspire in students these traits of gentlemanliness and of good citizenship. The school attempts to know each individual. When the students first enter school they become individuals of small enough groups for the teachers to make daily observations of their personal and social behavior traits, and yet large enough to offer the challenge for endeavor.

### INDIVIDUAL ATTENTION

From Kindergarten through Form Six students are studied with the purpose of securing the highest possible development in each student from the standpoint of mental, moral and physical growth.

At the beginning of each semester a standard intelligence test is given and the Intelligence Quotient of each student is determined as a first analysis of that student's capacity for learning.

A daily report is sent to the office of students who have not completed the assigned day's work. These students are detained in order to make up any deficiencies for the day. At the end of each week, grades are posted and by means of interviews with the students in the office and between teachers and parents delinquent students are not only carefully studied for the underlying reasons for failures, but an honest endeavor is made on the part of the school to correct individual faults in these students.

Six reports are sent to parents or guardians during the school year. Progress charts by means of scattergrams are followed. A student register, wherein data on each student is recorded as an aid to the administration and teachers in successfully dealing with each student, is kept.

Twice each year physical examinations are conducted by the school physician and all physical defects that would tend to interfere with the normal mental or physical growth of the student are not only brought to the attention of teachers, but a report is sent to the home with recommendations for correction.

A school nurse is in daily attendance at the school. Her services involve the keeping of weight charts, administering first aid treatments, and checking the spread of contagious diseases by making daily inspections of the students in order to detect the first symptoms of such epidemics that might arise were not these precautions taken.

Outstanding men in various professions are invited to the school throughout the school year, who speak on their respective professions. This is done so as to better acquaint the students with the requirements, advantages and disadvantages of the different professions. The school believes that by so doing the students can more wisely choose their life's work.

## COLLEGE ENTRANCE EXAMINATIONS

The York Collegiate Institute—York County Academy have well established themselves as outstanding in the preparation of students for College Board Examinations. The school is a College Board center and students who plan to take the examinations are given special attention. The results of the examinations taken by students in the school show that at least 90% of the students have passed each year. The success of the school with West Point and Annapolis candidates has been equally successful.

## ORGANIZATION

For the purpose of close supervision the school is organized into four divisions: The Kindergarten, The Primary Department, The Intermediate Department, and The Upper School. The divisions are made only for efficiency in the work. The entire school is a single educational unit.

## THE KINDERGARTEN

The Kindergarten is a place especially prepared and equipped for the child when he takes his first steps from the home as a separate individual. It is planned to bridge the gap between the home and the traditional first grade. It is designed to give him pleasure and satisfaction by supplying him with the proper play materials, and with the opportunities for activities which meet the instincts and tendencies so strong at this period of the child's life, and so essential to his development and growth.

Since play is one of the child's greatest instruments of acquiring knowledge, the method of constructive play, not amusement, is employed. The subject matter upon which the constructive play is based is taken from the home, the life of the community, sources of food and clothing, stories, songs, plays and games. Great care is always exercised that the activities shall be closely related to the child's own interest, and not arbitrarily imposed. The child's needs and desires for activity are recognized and met.

THE MAIN BUILDING

PRIMARY DEPARTMENT

KINDERGARTEN

## THE PRIMARY DEPARTMENT

The Primary department includes grades one and two. In grade one, reading is of first importance. The number program in this grade is developed through activity. In second grade independence in reading is the goal. In number work the processes of addition and subtraction are learned and a foundation is laid for multiplication and division. Writing, spelling, English and handwork are correlated with the units of work in these grades. Games, dances, rhythms and various physical activities are enjoyed by the children.

## THE UPPER SCHOOL

The Upper School is divided into six grades known as Forms. Form One is equivalent to what is usually called grade seven. Forms One, Two and Three are organized into a Home Room in order to meet the demands for more special attention and to afford a better opportunity to capitalize the interests peculiar to these students. This is done through the use of projects which appeal to this particular age group. Here initiative is encouraged, a spirit of cooperation is cultivated, opportunities for leadership are given and a sense of responsibility and pride in achievement is emphasized.

The schools award a diploma upon the completion of the fifteen units as required for admission to college. Credits for graduation are given upon the completion of the courses of study in Forms Three, Four, Five and Six. Although the passing grade of the school is 70, the school does not certify any student for college who has not obtained a grade of 80 in all subjects.

## THE SCHOOL DAY

The schools are in session from 8.30 A. M. to 11.55 A. M., and from 1.15 P. M. to 3.30 P. M. Periods are 45 minutes in length. Four periods are held in the morning and three in the afternoon. After 3.30 P. M. teachers are available for the assistance of students who are having difficulty with their school work.

## OFFICE HOURS

The Head Master and Principal may be seen at the schools from 9 A. M. to 12 M. and from 1.30 to 4.30 P. M. on any school day; and at other times by appointment.

During the summer vacation a representative of the schools may usually be found in the office from nine to twelve each morning, or at other times by appointment.

The buildings are open to visitors throughout the day.

## SCHOOL ACTIVITIES

The extra-curricular activities in the school are promoted by the clubs, literary societies, school newspaper, and the athletic department.

THE GLEE CLUB meets each Monday afternoon at 3.30. Students in the club present several programs in the school each year.

THE HOBBY CLUB is composed of the boys in forms one, two, and three. This club meets once each month when the hobbies of its members are presented, and many interesting projects are both discussed and followed.

THE PHI SIGMA SOCIETY dates from the beginning of the school. Membership in the society is composed of the young men in the highest three forms of the Upper School. Programs consist of essays, orations, debates, parliamentary procedure, and extemporaneous speaking.

THE SIGMA DELTA SOCIETY is maintained by the young women of the school who are members of the fourth, fifth, and sixth forms. It aims to deepen the interest of the students in literature, science, art and music, and to promote the social welfare of the school. An annual formal dance, sponsored by the society, is an outstanding social function of the year.

THE UPSILON OMEGA SOCIETY is an organization for the girls in forms one, two, and three of the Upper School. The members are given an opportunity to follow whatever interest is voted outstanding for the current school year. The presentation of one-act plays was the first interest of the society when founded in 1933-1934.

THE Y. C. I. CHRONICLE is edited by students in the class in Journalism. The paper has gained national recognition and has taken the highest awards in contests entered each year. The school paper is a member of the following School Press Associations: Columbia Scholastic Press Association, Pennsylvania School Press Association, and National Scholastic Press Association. Outstanding work in journalism is awarded by membership in the Y. C. I.-Y. C. A. Chapter of Quill and Scroll, international honorary society for high school journalists.

THE MAY DAY FESTIVAL is promoted by the girls in the Upper School and members of the other three departments of the school.

THE ANNUAL SCHOOL PLAY sponsored by the senior class has become the outstanding dramatic presentation of the school year.

**PHYSICAL EDUCATION** consists of exercises in the gymnasium during regular gymnasium periods throughout the school year, as well as scheduled athletic contests between the school and other preparatory schools, and college freshmen teams.

Reports, submitted by the school physician and determined by the two annual physical examinations, are referred to the department of Physical Education as an aid in the planning of exercises in the gymnasium. These exercises consist of apparatus work and games that tend to develop a sense of rhythm and proper coordination; that correct improper posture. Results from these classes have been very encouraging and show not only value in the development of a better physique, but a greater progress in classroom work.

The school is represented by varsity teams in the four major sports, football, basketball, baseball, and tennis. The girls of the Upper School are divided into two teams—the Orange team and the White team, for the purpose of intra-mural competition in hockey and basketball. The girls' varsity follows a schedule of contests with other neighboring schools. The school does not consider the winning of games as of paramount importance. Competition in sports affords an excellent opportunity to teach good sportsmanship, courtesy, control, and such traits that culminate in the development of character.

### THE DORMITORY

The school dormitory is located in the Y. M. C. A. building. This building is one of the most modern structures of its kind. Students are given the choice of single or double rooms with no extra charge. The rooms have been refinished; there are showers on each floor, and each student is given a membership in the Y. M. C. A., which includes the privilege of using the reading rooms, game rooms, large swimming pool, bowling alleys, and a splendidly equipped gymnasium.

## TUITION FEES

The rates per year are as follows:

Kindergarten	\$70.00
Primary Department, Grades I and II	108.00
Intermediate Department, Grades III-VI	162.00
Upper School, Grades VII-XII	212.00
Board and Room	300.00

A fee of \$10.00 must accompany the application of all new boarding students. This fee will be deducted from the first semester bill. Semester bills must be paid in advance.

## EXTRA FEES

Diploma	\$10.00
Chemistry Laboratory	6.00
Physics Laboratory	6.00
Biology Laboratory	4.00
Kindergarten Supplies	3.00
Primary Department Supplies	5.00
Art Fee	8.00

There is a reduced tuition fee of \$106.00 per year for clergymen, children of clergymen, and holders of Coleman Scholarships.

As a convenience, the tuition is made payable in two equal installments, one in September at the opening of school, the other on February first following.

Students supply their own books and stationery. These may be obtained at the school book store.

Students are received at any time during the year, but no allowance is made for absence before November first. When a student voluntarily leaves school before the end of the term, or is suspended or expelled, no refund will be made.

## SCHOLARSHIPS AND PRIZES

THE following prizes are offered each year under the conditions indicated, and are awarded at the Commencement exercises.

Only students who are in full class standing may compete for them.

## SCHOLARSHIPS

**THE COLEMAN SCHOLARSHIP FUND**—This trust fund, established by Mr. Samuel Small, the founder, provides scholarships for young men desiring to prepare themselves for the Gospel ministry, in accordance with the following provisions of the Trust Agreement:

"The annual interest and increase thereof shall be appropriated by the Board of Trustees to the education and support of young men, while students in said Institute, who may desire to prepare themselves for the Gospel ministry. Provided, That no part of the interest or income of said Fund shall be paid or expended for the education or support of any student unless he shall have been recommended by the Presbytery of Westminster, (or that Presbytery to which the First Presbyterian Church of the Borough of York, commonly called 'The English Presbyterian Congregation of York, Pa.,' shall belong) which Presbytery shall be in regular connection with the 'General Assembly of the Presbyterian Church in the United States of America,' and also recommended by the President of the Faculty of said Institute, and approved by the Board of Trustees. Provided also, That no more than one hundred and fifty dollars shall be paid from the Fund, for a single student in any one year. And, provided further, that, in admitting students to the benefits of said Scholarship Fund, under the foregoing provisions, the Board of Trustees shall always give preference to those who shall have been permanent residents of said County of York previously to becoming students in the Institute; but any student who shall have begun to receive the benefit of said Fund may continue to enjoy the same until his connection with the Institute, as a student, shall cease, unless he forfeit his claim by unworthy conduct."

**ACADEMY SCHOLARSHIPS**—The charter of the York County Academy provides that "there shall be admitted into the said Academy any number of poor students, who may at any time be offered, in order to be taught gratis, Provided the number so admitted shall at no time be greater than seven, and that none of said students shall continue longer than two years, if others should offer."
